These beautiful artificial flowers can be made to match your theme and look wonderful in the rear window of the car as you are driven to your ceremony and reception. We try as best we can to match to your theme but please be aware these are representations only so there will be some slight colour variations plus the design may look slightly different to the photograph as each decoration is handmade.

All we need from you is the decoration number and we will do the rest.

Of course you may keep these flowers another memory of your day.
